SANAUBAR PROJECT FOUNDER IN SAUDI ARABIA WITH THE CROWN PRINCE OF JORDAN AND ENTREPRENEURS YOUTH FOR UMRAH

Our founder Malak Alamar has been awarded a royal grant from Crown Prince Al Hussein bin Abdullah II to perform Umrah alongside a group of innovative youth and achievers from various regions of the kingdom. The Jordanian Crown Prince expressed his pride in the elite youth who participated in this mission, Malak thanked his Royal Highness for his support and his constant belief for Jordanian youth. Malak was chosen to join the Crown Prince's mission along with 80 people from various regions of the Kingdom.

SANAUBAR PROJECT HAS BEGUN ITS FIRST PILOT PROJECT.

The project's first initiative, awareness sessions for students on green sustainability, leadership, and climate change, highlighted the importance of environmental leadership, adopting eco-friendly practices, green sustainability, and resource preservation. It emphasized nurturing a generation knowledgeable about environmental issues and capable of leading in the field. The session was attended by 30 students from the 8th grade at Al Baq'ah Girls' Preparatory School. The project will proceed to its second phase, which involves the practical phase of eco-friendly practices and tree planting in the school gardens.

Are you excited to be part of the practical phase of the project?

THE SANAUBAR PROJECT TEAM VISITS ONE OF THE LARGEST FARMS SPECIALIZING IN ORGANIC AGRICULTURE IN JORDAN.

The Sanaubar Project team visited (Al-Khader) Farm, which is one of the leading farms in organic agriculture in Jordan. The team explored organic farming techniques and the various types of the organic plants that could be suitable for home and residential areas. They also learned about various modern farming techniques such as hydroponics and vertical farming. The Sanaubar Project team discussed partnership mechanisms with the farm to provide them with seedlings of plants suitable for rooftop and home garden farming. The farm owner expressed joy in partnering with Sanaubar and pledged full support to supply suitable seedlings when implementing the home farming project begins.

SANAUBAR PROJECT PARTICIPATED IN ONE OF THE MOST SIGNIFICANT CONFERENCE ON ENVIRONMENT, ELECTRICITY AND WATER (NEXUS)

Sanaubar project has been chosen to participate in Nexus conference. The Nexus approach highlights the interconnectedness between water, energy, food security, and ecosystems - water, soil, and land. This conference was under the patronage of His Royal Highness Prince Hassan bin Talal. At this conference, the Sanaubar Project team met with experts in the fields of environment, energy, agriculture, and water, discussing ways to establish partnerships with various organizations and outline strategies for developing the Project to serve sustainability and green leadership.

YOU CAN ALSO BECOME PART OF SANAUBAR FAMILY AND HELP US TO MAKE OUR DREAM TRUE OF SEEING THE VULNERABLE COMMUNITIES TRANSFORM INTO SELF-SUSTAINING GREEN VILLAGES. YOU CAN ASSIST US BY DONATING OR VOLUNTEERING WITH US. FOR MORE INFORMATION VISIT OUR WEBSITE WWW.SANAUBAR.ORG OR TEXT US ON INFO@SANAUBAR.ORG
