SANAUBAR YOUTH TEAM PARTICIPATES IN THE FINAL DAY OF THE ENVIRONMENTAL AND CLIMATE DEBATE CHAMPIONSHIP AT JUST UNIVERSITY

The Environmental Protection and Agricultural Technology Club at Jordan University of Science and Technology invited the Sanobar team to participate in the final day of the Environmental and Climate Debate Championship due to its effective activities and noticeable impact in spreading environmental awareness. The team was happy with this participation, which also allowed it to create partnerships and an opportunity to meet with young Jordanians active in climate issues in Jordan.

SANAUBAR PROJECT PARTICIPATES IN THE LARGEST CONFERENCE IN THE WORLD ON CLIMATE CHANGE COP29

Malak Alamar, the founder of Sanaubar Project participated in the COP 29 Conference of the Parties in the Azerbaijani capital, Baku, as one of 6 young people chosen by Generations For Peace and UNICEF to represent Jordan in this conference. This conference is the largest global gathering of leaders, heads of state, and youth active in climate change and concerned with making international policies and decisions related to climate. This participation came in appreciation of the efforts of these young people in climate action in Jordan.

SANAUBAR TEAM IN A SPECIAL INTERVIEW TO TALK ABOUT OUR PROJECT ON JORDANIAN TV

Jordanian Television interviewed the founders of Sanaubar project, Malak Alamar and Eng: Ghaid Al-Hariri, through (youm jaded) program. They talked through this interview about the beginning of the project, its most prominent achievements, the projects that were implemented, the upcoming projects, and the opportunities for this project, this interview came to inspire many young Jordanians to start their development projects and initiatives for the sake of development Jordan in the agriculture and environmental sector.

SANAUBAR PROJECT IN A VISIT TO THE ROYAL HASHEMITE COURT

Members of Sanaubar team, in cooperation with the Our Tourism Initiative, and the We for the Climate initiative, visited the full Royal Court and spoke about their various initiatives and activities in front of representatives from the Court. They visited the various departments of the Court and learned about its history and the origin of this historic place.

** DEAR SUPPORTERS **

We deeply thank you for your unwavering support of our environmental and climate action initiatives. Your belief in our vision and work has been vital in creating meaningful change, and we are extremely grateful for your dedication.

Because of your contributions, we have engaged communities in sustainable practices and empowered young individuals to play an active role in protecting nature in Jordan.

As we continue to expand our mission of climate resilience, your continued support remains critical. It fuels our passion not only to restore degraded lands but also to educate and empower the next generation of environmental leaders. Together, we can inspire action and build a movement of changemakers committed to protecting our Earth.

With your help, we can ensure a healthier, greener world for generations to come, for more info kindly visit our website.

**WITH DEEP GRATITUDE AND HOPE
SANAUBAR FAMILY**
